

#	Epic (Phase)	User Story / Task	Est. SP
DB & Core API			
1	ER Diagram & DDL	Draw ER diagram for Entreprises, Etablissements, Dirigeants, Villes...	5
2	Migrations – core tables	entreprise, etablissement, ville, departement, region, pays	8
3	Foreign keys + indexes	Add FK constraints and B-Tree/GIN indexes on slug, siren, lat/Ing	5
4	Migrations – NAF & Specialities	Tables activite_naf, specialites	3
5	Migrations – Misc (FAQ, IA, Passeport, Doc...)	faq, contenus_ia, passeports, documents, abonnements, utilisateurs, publicites	6
6	History tables & Import logs	import_history, import_logs + soft-delete for radiations	4
Data-Import Engine			
7	INSEE fetch command	HTTP GET CSV, store raw file	5
8	Parser + mapping to DB schema	Build parser & bulk insert with upsert	8
9	Queue jobs for incremental import	Use Laravel Horizon/Queue	5
10	Radiated companies handling	Soft-delete and “re-add” logic	3
11	Resume after interruption	Job checkpointing + retry	4
12	Logging & quality checks	Monolog + CSV diff reports	6
Back-office Admin			
13	Install Nova (or Backpack)	CRUD scaffolding for all entities	8
14	Roles & Permissions	spatie/laravel-permission: Admin, Editor, Enterprise, User	5
15	UI – Toggle / Reorder blocks	Store visible, position per block in DB	6
16	Ad-management screen	CRUD + placement rules	4
17	Passports & IA content screens	Edit passports, regenerate AI	5
18	User management (CRUD + reset password)	Admin panel	5
AI Content Generator			
19	LLM client wrapper	OpenAI / Ollama	3
20	Service layer for presentation, histoire, etc.	IAContentService	8
21	CLI command to generate per company	Batch generator with queue	6
22	Redis cache for AI results	Cache key per company & block	3
23	QA of generated content	Unit tests + manual review	4
SEO Generator			
24	Slug generation logic	fr.eurosocietes/{region}/{department}/{city}/{naf}/{slug}	5
25	Meta tags builder	From DB fields & AI text	5
26	Schema.org JSON-LD generator	LocalBusiness, BreadcrumbList, FAQPage ...	6
27	Sitemap generator (dynamic)	XML sitemap with priority & changefreq	5
28	Internal linking design	Breadcrumb + contextual links	3
Front-end – Fiche Entreprise			
29	Next.js page /companies/[slug]	SSR + SWR data fetching	8
30	UI components for all blocks (info, passeport, carte)	Responsive design	10
31	Hide/Show block from DB flags	Conditional rendering	5
32	Leaflet map integration (OpenStreetMap)	Markers, routes	6
33	Passeport component & CTA	Interactive badge + modal	4
Territorial Pages			
34	Country page template	List regions	5

	35	Region page + list of departments/cities	Pagination	6
	36	Department page + cities list	SEO slug, map preview	7
	37	City page with company list & filters	API query + pagination	8
Métier + Ville				
	38	NAF listing page	Filter by profession	6
	39	Profession pages (Plombier, Restaurant...)	List companies in city	5
	40	Cross-métier + ville routes	/plombier-lyon, etc.	7
Subscription / Passeport				
	41	Stripe integration + checkout flow	Create products & subscriptions	8
	42	Coordinate validation logic	API endpoint & admin UI	6
	43	Passports & badges display	Front-end badge icons	5
	44	Email notifications (welcome, renewal)	Mailtrap / SES	4
Search Engine				
	45	Search API with filters (company, city, profession...)	Laravel Scout + OpenSearch	8
	46	Full-text index on entreprises table	GIN index on name, activity, description	5
	47	Pagination & sorting in API	Page size, order by relevance	6
	48	Search results page UI	Display list + facets	7
	49	Faceted search (tags, location)	Front-end filtering widget	4
Optimization / Deployment				
	50	Redis caching & CDN config	Cache headers, Cloudflare pages	5
	51	Image optimization pipeline (WebP/AVIF)	Build step + Next.js image loader	4
	52	Lighthouse test & performance tuning	Reduce CLS, TTI	6
	53	CI/CD to prod (Docker-Compose → Kubernetes)	GitHub Actions / GitLab CI	7
	54	Cloudflare configuration (SSL, WAF, caching)	Global settings	5
	55	Security hardening & rate limiting	Laravel Sanctum + Throttle	4
